

JAILBREAK APPS AND TWEAKS (WITH COMMENTS AND SETTINGS) (NEW TWEAKS AND NOTABLE TWEAK UPDATES ON THIS LIST ARE MARKED YELLOW)

Name	iOS 9 Compatibility	Description	My Settings
Actlf	?	"Add[s] conditionals to Activator" (like current WIFI name, open App, ...)	not set up yet!
Activator (updated!)	y	System-wide gesture-based shortcuts to settings toggles and other features	Beta repo (recommended): http://rpetri.ch/repo/ ; Can activate 3D Touch menus via gesture!!
AFVideo	y	Enables auto-focus while recording video on legacy devices	no settings
Air Traffic Control	?	Prevents airplane mode alerts from showing	no settings
Alarmy (iOS8)	n	Displays the next alarm next to the date on the lockscreen.	http://repo.fortysixandtwo.com
AlwaysBackCamera	?	Forces back camera on Camera.app launch	no settings
BatteryLife	y	Battery info tool; shows remaining capacity, charging / discharging voltage...	no settings
Beep Beep	?	Allows you to customize the charging sound.	I use the Apple motorbike revs sound.
BetterWiFi7	y	Shows geeky details about available WiFi networks; known networks list	enabled: remove rssi limit, pull to refresh, show encryption, exact signal strength
BlurBoard	?	Adds a neat blur effect to the iOS keyboard (background)	Warning: light / white themes might make the keys invisible on bright backgrounds. That's why I chose the „Dark Blur“ option which looks neat and kinda like the vintage iOS 6 keyboard!
CClean	y (mostly)	Allows you to customize Control Center appearance.	Only changed icon background to square.
CCSettings for iOS 8/9 (updated)	y	Allows you to customize Control Center	5 toggles per line, dismiss true, whitelist podcasts & music, include AP, W, BT, Dat
Censio (new)	y (UI glitch but ok)	Adds "AppStore-like reviews for Cydia" - great tweak!	no settings
ClassicLabels for iOS 7.1 & 8	?	Applies iOS 6-style "app icon label shadows" - looks neat!	no settings
ClassicLockScreen	?	Makes the lock screen look like the one from iOS 6 (also has modern mode)	currently in modern mode
Combination Lock	?	Gives the lockscreen passcode (& PIN) entry screen a witty interface!	no settings
Controllers For All	n	Allows you to use any non-MFI bluetooth controller with your iOS device	PS3 mode
Cornered	?	Makes menus' corners even rounder and like those on iOS 9. Must-see!	no settings
CurtainsForYou	?	Super-cool 3D curtain animation when sliding to go back!	no settings
CustomDia	?	Allows you to customize Cydia!	I only use the "skip loading" option ATM.
CustomNotificationSound (updated)	y	As the name suggests, custom notification sounds for any app!!!	Changed Twitter.app's sound to the stock Tweet sound. Bye, tri-tone.
Cydia Impactor	n (being worked on)	Allows you to go back to stock and restore OTA and without updating iOS!	no settings
Cydia Timeout 5	y	Sets the maximum timeout for unresponsive repos to 5 seconds.	no settings; repo: chickenmatt5.github.io/repo/
DarkCC	n	Makes the control center dark. Especially nice at night, see settings →.	Activator set to enable the tweak at 9pm and disable it at 7:30am. Works great!
DathBanners 2	n	Full notification banner customization; picks bg color based on app icon.	Banners/LS: all sliders 0.4; NC: no gradient, sat 0.35,alpha 0.15,header alpha 0.38
DetailedBatteryUsage	n	Shows an Apple-internal battery life debug menu with many details	no settings
Dim	y	Can dim your screen even further than stock iOS	Activator gesture: status bar swipe right to show Control Popup
DoubleCheck	?	Helps you avoid texting the wrong person by showing their name in text field	compositor: "an" (German for "to")
DylibSearch (new)	n	Checks your MobileSubstrate directory for malware.	no settings
EditPasteboard	?	Allows you to edit your pasteboard on the fly	Activator action: slide left on status bar
Emoji83+	?	Enables hidden emojis (lots of flags and spock emoji)	no settings
f.lux	y (via beta repo)	Allows you to change the screen's colors (warmth) to match times of day.	I use it to calibrate my fake display (yes, I dropped my phone, shame on me.)
Floater	?	Makes different UI elements' edges round to make them look like they float.	Only used for Notification banners and menus.
ForceGoodFit	y	Makes outdated apps take advantage of the iPhone 6 resolution (see "Upscale" for context)	All apps that require it: AppStore, iTunes Store, Reminders, Fotos, Mail, Passbook, Safari, iNewsDaily, MVV
ForceTouchActivator	y	Simulates Force Touch / 3D Touch on older devices, appears as Activator event.	In apps: home button, Homescreen: control center.
FrontCamUnMirror	?	Prevents the ridiculous mirroring of the selfie cam in the Camera.app	no settings
Hapticle (new)	y	Adds haptic feedback to many 3D Touch tweaks.	enabled
Hide Apple Music Transport Controls	?	Hides the share and heart buttons next to the now playing controls.	no settings
House Arrest Fix	?	Enables pre-iOS 8.3 USB app container access on computers	no settings
iCleaner Pro	y (via beta repo)	Shows System information and allows you to free up disk space	
iFile	y	File browser for iOS!!! Supports USB storage devices via a USB camera adapter!	show app names enabled
Keyboard Accio	y	Makes switching between your two favourite keyboards quicker & more efficient	no settings
KeyShortcut	n (PRO was updated, free not)	Keyboard shortcuts for iOS!!! cmd C, V, X, A and Z!	no settings
LastApp (updated)	y	Lets you quickly switch to the last used app via an Activator gesture!	I have it in my 3D Touch menu.
LyricForMusic	?	Displays song lyrics for songs in the Music app. Not very reliable.	no settings
MoreRecent	?	Lets you scroll through more of your recently added music in Music.app	no settings
Moveable9 (new)	y	Allows you to move and hide status bar icons!	No carrier, time left, wifi/3G right, nothing in the middle (http://tateu.net/repo/)
NCIfNeeded	y	Makes NC open to logical section.	no settings
NewsOfTheWorld	y (iOS 9 only!)	Reveals the News app in all countries!	no settings
NO PLS RECOVERY (new)	y	Prevents computers like iTunes from sending your device to recovery mode.	Therefore prevents unintended restores.
NoEditMenuDelay	y	Removes the annoying delay when invoking the copy/paste menu	no settings
NoNearMe	?	Hides the "near me" section of the AppStore.	no settings
NoNotificationsText	n (no effect)	Allows you to change the „No notifications“ text in NC.	I've set it to a message to sb who might find my phone (backup phone no. etc.)
NoSlowAnimations (updated)	y	Speeds up animations across entire iOS.	
Not-so-smart	?	Disables Safari app recommendations	no settings
NoTabBarText	y	„Hides text under UI Tab buttons“ (like AppStore sections e. g. „Updates“)	Useful on smaller devices to save screen space; no settings.
NotiAction	?	Allows Activator to listen to certain text in incoming notifications.	I haven't set it up yet.
NoTouchCancelReply	n	Prevents you from accidentally dismissing quick reply by tapping the blurred area	no settings
Open In App For Photos	n	Shows a complete "Open in..." menu in the Photos.app	no settings
OpenSSH	y	SSH access to your iPhone!	no settings; remember to change your root & mobile passwords!
PhotoInfo	n	Adds a (i) button to the Photos app that shows you exif data and more!	no settings
PhotoSize	y	Displays the size of selected photos & videos in Photos.app.	enabled
